The Herald would like to call attention with a complimentary reference to the recent graduation of Harry Dunn from Grinnell college. For a good many years Mr. Dunn has been an employee of the Rock Island in its office in Grinnell and during this time he has been preparing to graduate from the college. He has done his studying in the midst of a heavy pressure of railroad duties and is now a full-fledged graduate of Grinnell in the Bachelor of Arts course. The Herald wants to congratulate Mr. Dunn on his accomplishment. As a boy he apparently had an ambition to attend college and worked in The Herald office where he got his start at hard labor. He afterwards secured a position in the Rock Island and has continued with them all these years. His achievement is on worthy of note. He has been a successful employee of the railroad. His courtesy at the window and his duties has been remarked by many who have had occasion to do business with him and The Herald wants to congratulate him, not only upon his success as an employee of the railroad and his constant courtesy to people whom he has served, but also upon his achievement in receiving the Bachelor of Arts degree.
