

## BODY OF AGED

## MAN FOUND IN WELL

7-23-1926

Frank Ecklund of Brooklyn met death by drowning Thursday evening. He had gone to draw a pail of water and as his age made him very unsteady, it is thought that he became overbalanced. Mrs. Ecklund missed him and started a search. John Pierson discovered his body in the cistern and called for assistance to remove it. Physicians were on hand immediately, but were unable to restore life. Mr. Ecklund had for many years been a respected citizen of the Brooklyn community.
